

Say I love you... ON A CASTLE SEEN FROM ABOVE

What if you could write your passionate message across the surface of the earth ?
What if you were to engrave your love on the earth's crust ?
It's time to pick up your best writing pen... Your declaration is going to be revealed in the sky !

Sometime between 10 and 10:30am, your hotel's reception or alternatively, our chauffeur will invite you to go out to the exceptional vehicle awaiting you at the foot of the building... not just any old "classy" vehicle : a 1969 Rolls Royce Corniche convertible !
Destination : unknown...

The grandest and most spectacular romantic scenario is about to be played out...

While leaning softly against the back seat, you'll leave the French capital's lit up streets and head towards the department of Yvelines and its bucolic surroundings. Later you'll notice the first grayish buildings of an airport on the tip of the spectacular horizon.

Your sweetheart will start to think that you've planned a simple touristic plane or helicopter flight... All the better, for this innocent idea will later add spice to your animated surprise !

You'll experience the ultimate in luxury as your car cruises across a private area and pulls up alongside a Robinson R44 helicopter.

As you'll climb out of the car, you'll be greeted by the captain of this elegant helicopter. You'll then amorously settle down in the cockpit where you'll discover two roses have been slipped onto your seats...

The helicopter's blades will gradually accelerate and you'll beam with joy as you lift off from terra firma and experience the wonderfully unique sensation of a vertical take off.

The panoramic disposition of the R44's windows will make you feel as if you're floating in the sky, you'll be gliding like two birds while you witness the extraordinary splendors offered only to those who sail between the heavens and the earth. You'll also have full access to a digital camera which will enable you to immortalize these magic moments together.

Around twenty minutes into the flight, the City of Light will flower the horizon like a shimmering mirage.

To your sweetheart's delight, you'll slowly be able to make out the Tour Montparnasse, the Eiffel Tower and the Defense district's tall towers.

Paris will be at your feet - so much so that you'll feel like you'll be able to touch its romantic alleyways with your fingertips...

The charming landscapes will once again wave their magical spellbinding wand at you as you smoothly fly away from the French capital to discover Meudon Forest, the Château de Versailles, followed by the Haute Vallée de Chevreuse Regional Park, the Château de Dampierre and the Abbaye des Vaux de Cernay.

The lakeside surroundings and seductive forests will now give each other the signal...
...that of your love.

Just when you think that this beautiful parade is nearing its epilogue, an unimaginable apotheosis will catch you eye in an exhilarating whirlwind.

Majestically spread along one hundred feet between a mirror of water and the façade of one of the most sumptuous French castles will be... your immensely wonderful declaration !

Your sweetheart won't believe his/her eyes !

The helicopter will then make several rotations in the sky in order to depict the full grandeur of your wonderful display of love.

Your partner will be overcome by amazement and blissful emotions !

The garden's 185 acres will be all yours. These typically French style gardens, created by Duchêne using drawings done by Le Nôtre, dominate the Chevreuse Valley even today. On this exceptional day however, it is your very own declaration that will dominate the valley and inspire all the birds to sing about it.

Upon returning to the airport you'll be able to enjoy a smooth glass of champagne.

The captain will then hand your sweetheart a bouquet of amorous flowers along with a box of exquisite dark chocolates.

You'll collect your CD of the photos you'll have taken during the flight before you return to the comfortable back seat of your Rolls Royce Corniche.

Your angelic flight will give you love wings, which will be henceforth destined to be spread with grandeur and tenderness.
