

Short Breaks :: **Exploring Lisbon -- 3 nights**

[Seven Hills of Seduction]

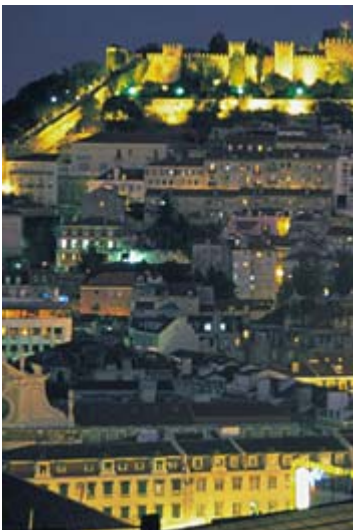

With many years of history, a balmy Mediterranean climate and an unspoilt coastline, Lisbon is today one of Europe's most enjoyable cities.

You may lose yourself away in the old quarters of the city, or take a visit into the "Invented City" (Parque das Nações). Lisbon was subject of a great urban revitalization for Expo'98, and the result was an entirely new approach on architecture and space organization in the new city, where lie the most recent monuments, contemporary architecture and the Europe's second largest Oceanarium.

[Program]

Day 1 – The arrival!

Our representative will welcome you at Lisbon's airport, assist you and transfer you to your accommodation. The rest of the day is free.

Day 2 – Seven hills of seduction by day and Fado music by Night

Feel free to explore the city on your own! This legendary city has over 20 centuries of history and is so full of historic monuments and sites; you won't know where to begin. We recommend you a look at Saint James Castle (whose Moorish remains loom over the city and offer a great vantage point to get an aerial view of Lisbon's sights), Alfama (where the narrow winding alleyways have remained unchanged for decades), and the Chiado area, home to elegant shops and beautiful art-nouveau cafes.

At night you will see a "different" Lisbon. We prepared a night sightseeing tour, which is also a very interesting perspective of the city.

The day ends with a very special dinner at the sound of Fado music. Fado is the soul of Portuguese culture. At the sound of a Portuguese Guitar you will feel immediately a different atmosphere: Warm, Romantic, almost mystical

Day 3 – Full day tour (choose between):

- Sintra: Like Kings and Queens (Option 1)*
- The Blue Coast: Feeling the Atlantic Breeze (Option 2)*

Day 4 – Departure

Check-out from the hotel and transfer to the airport.

End of our services.
